## WILL VOTE FRIDAY.

### Rule to End Debate Is Adopted.

### Twenty Republicans Desert on Roll Call; Also Four Democrats.

### Amendments Only Those of Committee, Lumber, Hides and Barley.

### Clark of Florida Breaks Tie With Party in Fight for Protection.

### ASSOCIATED PRESS NIGHT REPORT.

WASHINGTON, April 5.—Three o'clock p.m., April 9, was set by the House today for a vote on the Payne tariff bill.

The long resolution of the Committee on Rules closing the general debate, providing for certain committee amendments and a full and free opportunity to change the lumber and hides schedules, was reported late in the day and adopted with fifteen votes to spare, notwithstanding the desertion of twenty Republicans. Four of the 186 affirmative votes came from the Louisiana delegation, who likewise broke away from their party.

The Rules Committee under limits

of the bill to those which the Ways and Means Committee will report, and to lumber, hides, barley and malt schedules.

The rule as reported provides 25 per cent ad valorem duty on timber in place of the present countervailing duty.

At 2:25 o'clock p.m. debate was suspended, and Mr. Dalsell of Pennsylvania, from the Committee on Rules, reported an order of procedure on the bill. The Republicans loudly applauded as the order was sent to the desk to be read.

Mr. Dalsell then moved the previous question, but before the vote was announced Mr. Cannon of Missouri moved to recommit the rule and became involved in a controversy with Mr. Dalsell and the Speaker over whether the motion was in order.

Mr. Clark, amid Democratic applause

quoted from a former decision of Speaker Cannon holding that a similar motion to recommit was in order. In an elaborate discussion Speaker Cannon held that the question was in order.

"This is not an ordinary rule," he said, "and Mr. Clark's motion is overruled."

### DEMOCRATIC FORCE ROLL CALL.

On the motion for the previous question the Democrats forced the roll call. The vote resulted: Yeas, 194; nays, 182.

The Republicans voted against the question of no motions to be voted on.

Mr. Dalsell will consider the votes of the House today, involving

votes for electric power and light, and other charges against Librarian and others in connection with Library may result in abolishing the Library.

Miss Hayes of Los Angeles named as Commissioner of Labor Statistics of Southern California.

Wire telegraph rates from Avalon to half.

Another roll was forced by the Democrats on the adoption of the rule.

The rule was adopted—yeas, 194; nays, 178.

The Republicans voted against the rule and four Democrats for it, as follows:

Republicans—Austin (Tennessee); Cooper, Lenroot, Morse, Nelson (Wisconsin); Dawson, Good, Haugh, Bickett, Woods, Hubbard, Kendall (Iowa); Hinshaw, Norris (Nebraska); Lindberg (Minnesota); Murdoch (Kansas); Parsons (New York); Poinsett (Washington); Young (Michigan).

Democrats—Brouard, Estopinal, Pupo and Wickliffe (Louisiana).

On the previous question Copp (Wisconsin) and Wilson (Minnesota)

### PLAYS UNION LEADERS.

## "IDLE AND DISSOLUTELY KNIVES" SAYS PRIEST.

### "When Unions Enthrone Men Like Debs and Gompers They Must Expect Body of People to Condemn Them," Declares Catholic Pastor.

### BY DIRECT WIRE TO THE TIMES.

NEW YORK, April 5.—(Exclusive Dispatch.) "Idle, dissolute knaves" is the term used by the Rev. J. Bedford, pastor of the Roman Catholic Church of the Nativity, Brooklyn, to describe certain labor leaders.

The slaying attack by the priest, who is known for his free utterances in present-day questions, appears in the latest issue of the Mentor, the parish paper which he edits.

"This is the end of the union," says the editorial. "It is time to realize that the union is a strength. But strength can be used and abused. So long as it is used, it can hurt no one and help everyone. But when it is abused it can become a real menace to industry and to business."

"The virtues have been told so often that a glance at its vices may be novel, if not interesting, and will show that all the wrongs are not done by the rich bosses. The men allow a few noisy leaders to make rules for them, they must expect the body of the people to oppose and condemn them. They support those leaders in

DUQUOIN (Ill.) April 5.—[Exclusive Dispatch.] The failure of an Emporia (Kan.) woman to get a legal separation from her husband has just cheated Owen Reeves, 77 years old, for years a resident of Duquoin, out of his fifteenth wife. Although several of his fourteen unions have ended ingloriously, Reeves still regards marriage as a blissful success. He is now in the field for another wife.

"When a man decides he likes a woman he should pop the question right away," said Reeves. "Never once did I spark a woman more than five times and, as to the sparkling, it should never be done in the dark and in secrecy, but straightforward and open. I have proposed several times right in company. Every man needs the companionship of a good woman, and I am going to have another one as soon as I can get her." I wedded for the first time in Calhoun county, Illinois, when I was 14 years old."

Mysteries of Cult of Mrs. Eddy as Applied by President of Mexico and Orient Railroad Prove Too Much for Two English Stockholders in Company.

### BY DIRECT WIRE TO THE TIMES.]

NEW YORK, April 5.—(Exclusive Dispatch.) Christian Science won in the case of Arthur E. Stilwell, president of the Kansas City, Mexico and Orient Railway, who had been laid up since March 25 in the Waldorf Astoria with serious throat trouble. Important affairs of his railroad had to wait while Mr. Stilwell and his wife fought his illness with Christian Science treatment.

His business associates were perplexed by his condition, as they could not learn just what the matter was with him, or how serious his trouble. But this afternoon Mr. Stilwell, who had been up and with his wife caught the 2:30 o'clock train for Chicago.

The railroad president's departure from the city was unexpected.

Only an hour before he left in a taxicab, with his throat bound about with silk mufflers, two Englishmen he had brought with him to oversee his railroad, in which they have invested, were fretting and stewing over their week's delay in this city and the mysteries (to them) of Christian Science.

JOB FOR GOOD.Declares Southern California  
Beats Riviera.No More Work Says Former  
Railway President.Old Head of New York Cen-  
tral Is Resting.

BY DIRECT WIRE TO THE TIMES.

CHICAGO, April 5.—[Exclusive Dispatch.] While in Chicago today, William H. Newman, ex-president of the New York Central lines, stated positively that he would never again engage in active business life. Mr. Newman, who together with the late A. J. Cassatt, president of the Pennsylvania railroad, was rated as one of the greatest railway presidents this country has produced, also declared that he purposed remaining a member of the boards of directors of the New York Central.

Regarding Mr. Newman's future there has been much doubt which he thoroughly dispelled today while calling upon a score or more of old friends in the railway service.

"I am through with active service. Most emphatically through. I do not feel like it let to pasture. For the first time in my life I have had an opportunity to see something of my own country. I have spent many months in Southern California and have known well with I should have discovered long ago that the Riviera isn't half so fine as Southern California.

"I am not yet acquainted with the United States before I die, an acquaintance which I was never able to make while trying to run a railroad system. No, I was not driven out of the country. I am still with the New York Central lines by Mr. Harriman. Any one else except by Bill Newman. Such a system as the New York Central lines needs a younger man at its head. I am not yet 60 years old, but night, if need be, wrestling with its manifold and complex problems, and ready to go to work in the morning without breakfast."

"The management of a great railway system is a game that burns the candle at both ends, and it is time I was through burning it that way. Do I think there are imbeciles on the New York Central lines? No, I don't. You bet I wouldn't remain on it for fear of a comparison. Seriously, the New York Central lines is all right, and I would remain a member of it. No, I do not propose to be made chairman, for that would be more work than I want to undertake. I am satisfied with the present arrangement."

BY DIRECT WIRE TO THE TIMES.

NEW YORK, April 5.—[Exclusive Dispatch.] The local traders in wheat were greatly excited today by the approach to the climax of the bull campaign inaugurated by James A. Patten of Chicago last September.

It is known that Patten, who has been known in the Chicago market for years for his bulldog tenacity and the fearlessness with which he has entered into one of the biggest "corners" in the market, is sole general of the campaign. Back of him is a tremendous reserve of capital coming from two of the largest railroad families in Wall Street.

In the New York market May wheat advanced today to \$1.26½ a bushel. This is the highest price in several years. Just now the feel for the pressure, with selling here at \$1.26½.

Throughout the North and the Middle West farmers have been selling their stored up grain at the prevailing high Chicago prices, and the withdrawals of cash from Chicago and the East to pay for the purchased wheat into many millions.

There were tremendous short interest, and today it showed signs of becoming panicky. Hundreds of thousands of bushels were settled for by the shorts at today's price.

## RECEIVER APPOINTED.

Bankrupt Brokerage Firm of  
Dickinson and Company.

ASSOCIATED PRESS DAY REPORT.

CHICAGO, April 5.—The American Trust and Savings Bank was today appointed receiver for John Dickinson &amp; Co., the Board of Trade house which suspended business last Saturday here and in New York. It was Federal Court proceeding. It was stated in court that Mr. Dickinson was now in New York, but that an effort was made to bring him to Chicago to testify before a referee in bankruptcy.

The assets of the company were said to be about \$20,000, but no statement of liabilities was made. The Journal states that a close friend of Mr. Dickinson received the following telegram from the broker:

"When you receive this we will be on the briny deep."

The "we" is supposed to include Mrs. Dickinson.

## LAW UNCONSTITUTIONAL.

CHICAGO, April 5.—[Exclusive Dispatch.] A serious blow to the government's prosecution of the cases of trafficking in women was dealt today by the United States Supreme Court, when the recent amendment to the law governing that class of cases was declared unconstitutional.

According to Dist. Atty. Sims, the decision will limit the activity of the Federal court in cases of traffic in alien women. Under the law as it stands, it is possible to conviction in cases of this nature could not be obtained unless the prosecution proved that the offender actually imported an alien woman for immoral purposes. The amendment, 1904, made the keeping of a disorderly house liable to five years' imprisonment and a fine of \$2000 for harboring, keeping or maintaining any woman for questionable purposes within three years.

CITY BILKED ON COAL.

ASSOCIATED PRESS DAY REPORT.

CHICAGO, April 5.—Members of the Chicago Dealers' Association are investigating charges that the city is experimenting huge sums for coal purchased upon "slipshod and loophole" specifications. It is declared the contract entered into by the city is such that ample opportunity is given for favoritism and that an avenue is left open whereby a dealer may agree to furnish a superior grade of coal and deliver a much inferior article. The coal dealers lay special stress upon the provision in the specifications giving the commissioner of public works the right to test coal delivered either by the evaporation method or by what is known as the analytical test. It is asserted the commissioner can interpret the specifications "to suit his own convenience."

## PLAN TO SAVE MONEY.

ASSOCIATED PRESS DAY REPORT.

CHICAGO, April 5.—Committee hearings will be held by the legislature this week on bills intended to prevent short weights and measures which the public is cheated in the purchase of commodities in the original packages. The city scales and others have been making investigations which tend to show, it is said, that the buyer is uniformly forced to pay for gross weight. "One of the principal causes for the increase in the cost of eatables," says S. Westerfield, president of the Retail Merchants Association of Illinois, "is that the consumers of Chicago are paying for tin, cardboard and glass, which they can't eat." "By requiring the food he buys in net weight," says John Kielander, city sealer, "other States have increased the value of money in buying food from 15 to 25 per cent, and with the right sort of meat it can also be done in Chicago,"

EXCELLENT AUTHORITY.

Octopus United States Attorney  
Kellogg Reads from an Opinion  
Given by Mr. Taft When Judge.

ASSOCIATED PRESS NIGHT REPORT.

ST. LOUIS, April 5.—For the first time in American courts a President of the United States was quoted as a legal authority today. During Special United States Attorney Frank B. Kellogg's argument in the government's case to dissolve the Standard Oil Company of New Jersey, as a violator of the Sherman anti-trust act, he referred to an opinion of Mr. Taft.

Mr. Kellogg read at length from a decision rendered in the Addyton pipe case by President Taft, when a judge in Cincinnati. The issue involved was an alleged restraint of trade.

Mr. Kellogg will conclude his remarks at noon tomorrow. As one of the four judges of the Federal Circuit Court hearing the case will be St. Louis on Saturday. Mr. Kellogg will insist upon the defense compelling its argument by Friday evening.

This would leave John G. Miltun of New York, Morris Rosenthal of Chicago, John G. Johnson of Philadelphia, and David G. Watson of Pittsburgh, but two and one-half hours each, this defense will bitterly oppose.

Mr. Kellogg will conclude his brief with the clerk of the United States Circuit Court here today, and then commence his argument, after two years of evidence taking.

The Standard Oil Company, the brief alleges, is particularly able to carry on this competition for the reason that it does not depend upon the sale of its products through its own retailing system or through ordinary channels as do most other ordinary manufacturers. It markets its products to the retailer in every village and community in the United States and in foreign countries.

Pulitzer Offends Gertrude Atherton.

Takes Too Much Noise for Famous Novelist.

FOLK CLASH AT Mt. Tamalpais Tavern.

DIRECT WIRE TO THE TIMES.

FRANCISCO, April 5.—[Exclusive Dispatch.] Alfred Pulitzer, the son of the owner of the New York World, who is writing his reminiscences of his life, has clashed with Gertrude Atherton, the novelist. The two are at Tamalpais Tavern, on top of a mountain that overlooks the Pacific surrounding country for sixty miles.

Pulitzer has the fad of rising late in the morning, getting up, and then doing his literary work. He makes much racket taking walks and striding through the house in his early meal.

Atherton, who sought the hotel quiet and seclusion, appealed to the manager. Maybe Mrs. Atherton may be a little too new to the place where she is now staying. The hotel servants would see Pulitzer reform his early-morning habits.

of Mrs. Gunjiro Aoki. Writes "You Know How I Love Japs."

DIRECT WIRE TO THE TIMES.

FRANCISCO, April 5.—[Exclusive Dispatch.] Mrs. Charles Emery of Anchorage, sister-in-law of Mrs. Gunjiro Aoki, arrived in Seattle from the North, and registered at the Hotel Savoy. Mrs. Emery, who is a dentist, had written to her mother when she was asked to approve of her son's engagement to Gunjiro Aoki, the Japanese servant in the family.

"I know that I love a Jap," she writes. Mrs. Emery made immediate for the office of Mrs. Aoki, and found genuine interest in her for the first time. Mrs. Emery could not find out who knew where Mrs. Aoki had her honeymoon, and she and her daughter this afternoon came to San Francisco.

FOR PROSECUTION.

Guards in Graft Charged Against Men Are Ordered Stricken Out by Court.

DIRECT WIRE TO THE TIMES.

FRANCISCO, April 5.—[Exclusive Dispatch.] When three of the counts of T. Shepard, a city councilman charged with misconduct in office, were ordered dismissed by the court today, the prosecution alleged that they had been ordered dismissed by the other charges against them. The other charges against the police, Captain of two patrolmen, who are also accepting presents and performing their duties, are under consideration and will be later.

SUNDAY COUNTS.

SPECIAL STATUS INVOLVED.

DAYTON PRESS NIGHT REPORTER.

FRANCISCO, April 5.—[Exclusive Dispatch.] General Agent Grier of the Tonopah and Goldfield Railroad, which handles most of the ore that goes out to the smelter, announced today that his company would have to add several more crews in order to take care of the high grade that is pouring in from Southern Nevada.

The vessel has been under way just one week, but the outpouring of gold is so great that the facilities have been taxed to the utmost. Last week the Western Ore Purchasing Company, which transports most of the ore, handled a thousand tons of quartz that averaged \$300 per ton. The bulk of the ore comes from the Consolidated, which contributed two hundred tons, and several others are sending out stuff that is too rich to mine.

Three shifts have been ordered at the Western smelter, where there has been but a single shift at work for eight months. The Nevada Goldfield Reduction Company has had to increase its force.

Most of the ore is going to Salt Lake but the Seiby Company of California has an agent soliciting specimens to that point. The largest amount of gold was so great yesterday that the regular train crews had to give up their runs, and devote their time to cleaning up the yards and switches. Fully 50 per cent of the rock goes out under shot gun guard.

NAMED MINT CASHIER.

Senator Perkins Helps Senator Bates of Alameda to Good Birth at San Francisco.

ASSOCIATED PRESS NIGHT REPORTER.

FRANCISCO, April 5.—[Exclusive Dispatch.] Acting in harmony with hop dealers in Oregon and California, growers and dealers in this State are asking for an advance of 12 cents to the present duty on hops. The Committee on Commerce and Navigation of the Consolidated Commercial Club has prepared a resolution asking for an increase in the duty.

The present duty on foreign hops is 12 cents per pound, equivalent to 35 cents per pound, and is not protective of the American industry, while it is claimed that a duty of 24 cents will be protective, but not prohibitive.

SLOPE BRIEFS.

Wants Chinks Admitted.

SAN FRANCISCO, April 5.—[Exclusive Dispatch.] Senator Bates of Alameda, a resident of California, has been appointed cashier of the United States branch mint of San Francisco, vice James Sweeney, resigned. Senator Bates is a resident of Alameda, which district he is represented in the State Legislature. He is the intimate friend and neighbor of Congressman Joseph Knowland. The appointment of Senator Bates comes through Senator George C. Perkins. Mr. Bates was elected to the Assembly from Alameda in 1902, and again in 1904. He will assume the duties of his new office April 16. He succeeds a brother of Superintendent Edward Sweeney of the mint.

## GRAFT PROSECUTION.

## NOW AFTER THE JUDGE.

Raiders Say Murasky Had No Right to Enjoin.

Deny That Order Was Violated in Search.

Talk All Day and Will Have Another Hour.

[ASSOCIATED PRESS NIGHT REPORT.]

SAN FRANCISCO, April 5.—A full day's hearing, devoted to reading of affidavits and the hearing of testimony, did not suffice to determine today whether or not three attaches of the District Attorney's office and a detective sergeant were in contempt of court when they searched the offices of the United Railroads on March 22. Judge Frank J. Murasky, whose mandate is alleged to have been disregarded, will grant the attorneys an hour for argument tomorrow, and then probably will take the matter under advisement.

W. H. Nelson, who appeared for the United Railroads, and James M. Hanley, the Assistant District Attorney who is accused of having violated the injunction, each introduced a half-dozen witnesses, and in their advocacy progress intimated upon several occasions that portions of the testimony were entirely irrelevant.

Tomorrow's argument will be limited to an hour.

## STRANGE ARGUMENT.

The four officials cited to show cause why they should not be punished for contempt of court denied today denying that the order of Judge Murasky had been violated, and also that the court proceedings were dismissed. Immediately thereafter and before the attorneys for the corporation had returned to the courtroom, Asst. Dist.-Atty. Hanley undertook to argue by argument and citation of authority that Judge Murasky had no authority to interrupt or prevent the raids upon the railroad offices, whereby it was alleged it was sought to recover papers stolen from the office of William J. Burns.

Detective-Sergeant Mulcahy, who escorted the court, which upon which the railroad officials were seated, and H. accompanied his affidavit of defense by a declaration that he had not been served with a copy of the complaint which engaged in the search and a denial that he had been one of the attorneys for the corporation through any of his party with contempt. He assumed all authority for the search and the same was corroborated by the affidavits of Ray C. Schindler and W. H. Russell, agents of the District Attorney's office.

Assistant District Attorney Hanley, in his affidavit, declared that he had not assumed any power and authority over the officers engaged in the search but added that, as an attorney, he advised Mulcahy that he could not do so, and that the corporation attorneys had declared.

## ATTACK ON MURASKY.

In addition there was filed an affidavit showing that the papers issued by Judge Murasky March 27 had not been filed at the office of the county clerk but had been given to an official in his residence on the evening of the same raid and filed during the next day.

Hanley consumed the entire morning session of the court with his argument. He claimed that he had to show that the court's restraining order was illegal because it had not been filed; because it had been issued on Sunday; because it had not been assigned by a presiding judge and because the order had not been legally served.

In conclusion, he declared that Justice Deasy, who issued the order, was not acting within his rights and could not be restrained in such a manner.

"If any one is to be punished for contempt of court, it should be myself and not other. I advised these officers as an attorney believing that there was no regularity in the issue of this order."

## PAPERS WERE FILED.

In opposition to the arguments of Hanley, Mr. Stettler, who introduced as witness County Clerk Harry L. Mulcahy, who stated that he had received and filed the papers at his house and placed them in the office the next day; William F. Stettler, who declared that Patrick Calhoun, who directed the search, had been given the order; was read by Stanley Moore; and Charles M. Black, general manager of the United Railroads, who also testified as an immediate witness of the raid upon the offices in the Balboa building.

Each witness was subjected to a series cross-examination by Mr. Hanley, who insisted in establishing the fact that the two officers, called "agents," were somewhat at cross purposes in their testimony. Mr. Black, however, agreed with Stettler, declaring that the restraining order and the complaint were read by both, Sergeant Mulcahy and Mr. Hanley.

On one occasion, Mr. Black, replying to a question by Hanley, said: "I understand you do not think that you would take a chance on your being in contempt of court."

Edward Foley, a clerk in the legal department of the United Railroads, was then called to testify to the matter of the search.

## DON'T WANT DEASY IN SEARCH WARRANT CASE.

[ASSOCIATED PRESS NIGHT REPORT.] SAN FRANCISCO, April 5.—The cases of William J. Corbin, Abbott McElroy, James V. Verner and Frank J. Murphy, an attorney charged respectively with receiving state property and grand larceny in connection with the alleged theft of documents from the District Attorney's office, were today continued by Justice Deasy until next Saturday.

The case was referred to a se-  
vera cross-examination by Mr. Hanley, who insisted in establishing the fact that the two officers, called "agents," were somewhat at cross purposes in their testimony. Mr. Black, however, agreed with Stettler, declaring that the restraining order and the complaint were read by both, Sergeant Mulcahy and Mr. Hanley.

Murphy, an attorney charged respectively with receiving state property and grand larceny in connection with the alleged theft of documents from the District Attorney's office, were today continued by Justice Deasy until next Saturday.

The United Railroads as a corporation and in the name of William M. Abbott began suit in the Superior Court today to prevent Justice Deasy from presiding in the severe case of violation of the legitimate search warrants by the ground that the warrants were issued improperly. The case will be heard before Judge Sewell.

Frank J. Murasky, San Francisco, who was told yesterday by men who raided United Railroads office that it was none of his business to issue injunction, attempting to bribe a Ruef venireman, was E. A. S. Blake, the self-confessed go-between in the matter. He is quite ill, but said he would remain on the stand while his strength permitted.

His story did not differ from that told by him at the trial of Attorney Fred J. Murphy, who was acquitted on the same offense, and at the first trial of Newburgh, which resulted in a disagreement of the jury.

He testified that he had been asked by these lawyers, who were of Ruef's party, with regard to his prospective juror, J. M. Kelly, with regard to bringing him to vote for acquittal, should he be chosen as a juror.

After the noon recess Blake was so well that he could not remain the stand. William H. Schools, one of the attorneys appearing for Blake during his trial, was called and repeated in substance what he had previously said.

Roy C. Kelly, a special detective employed by Detective William J. Burns, was the only other witness of the day. During the afternoon considerable testimony was read into the record of the case from the stenographic reports of previous cases of the same origin.

[TWENTY MORE ESCAPE FROM JURY SERVICE.

[ASSOCIATED PRESS NIGHT REPORT.]

SAN FRANCISCO, April 5.—Twenty citizens from a special venire, the first summoned in the case, were examined today in the trial of Patrick Calhoun, president of the United Railroads, charged with bribery, without the twelfth seat in the jury box being filled.

The Circuit Court overruled both the defense and the prosecution in their efforts to disqualify the two remaining jurors.

Edward V. Lacey, a plumber, was certain that money had passed, but did not like "the giving of immunity to a criminal."

Griffith J. Konzle thought that "Calhoun had been shaken down."

Ferdinand Hiduska declared the defendant would have to prove to him he did not get. And the evidence he gave was the testimony of one of the former Supervisors whom he knew, and who had been given immunity. William J. Keenan said he did not know if he had anyone who could come up like that if he did anything that would give the defendant the best of it.

George W. Kneas believed that money had been given the Supervisors "because they did not have any when he came into office."

Others had leanings to one side or the other.

Ten jurors have been sworn in and one has been passed temporarily and is subject to peremptory challenge.

In conclusion, he declared that Justice Deasy, who issued the order, was not acting within his rights and could not be restrained in such a manner.

"If any one is to be punished for contempt of court, it should be myself and not other. I advised these officers as an attorney believing that there was no regularity in the issue of this order."

Walk Sixty-two Miles in the First Day's Stunt.

Record Appears Impossible of Accomplishment.

Feet of Shoes Pared Down by the Physician.

Pauline Jackson, with sixty miles and two laps in ten hours and fifteen minutes to her credit, was leader last night in the six-day walking match at the Made-in-Southern-California Exposition, when the meet was closed for the first day, to be resumed at 10 o'clock this morning.

Mrs. Jennie Beadle registered second, exactly one mile behind the leader, having walked ten hours and forty minutes. The track is nine laps the mile.

The standing of the contestants at 10 o'clock last night was:

Miles, Laps.

Pauline Jackson ..... 62 2

Mrs. Beadle ..... 61 2

Odessa Webb ..... 46 1

Jessie Gibson ..... 43 1

Hazel Harvey ..... 41 0

Cornelia Papentia ..... 31 4

Maud Miller ..... 31 1

Hazel Haudek ..... 31 1

Odessa Haughton ..... 29 2

The girls started in at 10 o'clock yesterday forenoon, all of them keen with enthusiasm, and kept up a fast, steady gait all day.

It is the history with six-day walking matches all over the country that the first day is dull and lacking in interest, but the second being considered as simply warming up to the task of endurance, but this is the staff of this kind in which women are the contestants, according to manager Newman.

ARE NOVICES.

Jennie Beadle is the only one of the contestants who has ever taken part in a walking match. The others although they have done some walking on their own account, are untrained in such an event for the first time. This was made clear on their visit to the doctor, who has been sent quarters on a high platform at the rear of the hall.

Of the nine girls in the match, only Odessa Beadle—her name is the only one according to the paper—was attending, who found nine robust, healthy hearts, but he also found sixteen feet in shoes that would have made a professional pedestrian weep. The shoes were built with high heels, the sort generally worn on the street, crowing the weight of the body onto the toe of the shoe and leaving the muscles in the heel of the leg untrained.

Shoes were cut where they pinched, toes of heels were sliced off, rubber soles ordered and the footgear generally overhauled, but today the girls are to understand what they are to wear.

Phenomenal as the records appear, the girls in this race are nothing but the ordinary in physique. They are healthy-looking girls, some of them being so slender they would attract attention on the street because of apparent weakness.

FOND OF WALKING.

Pauline Jackson, the leader, has a fond of walking all her life. When child she used to walk ten miles to shoot every day and liked it; she has continued walking long distances ever since, just for the fun of the thing. She is a tall, slender girl and yesterday evening she was making a walk with her stopping to rest on the way from 10 o'clock in the forenoon to 6:45 in the evening, when she took a brief rest, never secured a lead that could not overtake her.

Hazel Harvey's favorite stroll is up Wilson and back. She will walk the foot of the trail to the top of the mountain and back again in our hours and think nothing of it. She is a good walker and could think of a frail little thing scarcely able to stand ordinary fatigue. But last Saturday she started out from Los Angeles for her favorite walk, tramped to the summit of Mt. Wilson and hiked down to town, easily as though she had forgotten something she did not want to lose.

Jennie Beadle and Cornelia Papentia warmed up for the race Sunday, by taking a run around the Los Angeles and back. Jessie Beadle was the most vigorous of the number, was tramping steadily yesterday, going her own gait and holding second place, making thirty-one miles and four laps in the day, but she will be a dangerous contestant for she exhausted considerably and ended the race. Beginning a spurt in the afternoon, she walked twenty-four miles and four laps in four hours and fifteen minutes—rather too fast the doctor thought and the plucky little Italian was sent home at 7:30 pm. for a night's rest.

KEEPS HIGH HEELS.

Maud Miller might have been thought simply an attendant at one of the exposition booths, walking from one end of the hall to the other on an errand, judging from her appearance.

She wore a short-sleeved and long skirt and a pair of high-heeled leather shoes but she reeled off thirty-one miles and one lap in the day, nevertheless, and last night at the close, she was still walking as briskly as though she enjoyed it.

Mrs. Newman was repeatedly called upon to check the speed of the over-ambitious girls, sending them up to the doctor as soon as he saw them the heat billowed out of the physician and she was soon off the track again, and last night at the close, she was still walking as briskly as though she enjoyed it.

At 4 o'clock yesterday afternoon, the record read: Pauline Jackson, 62 miles; Jessie Gibson, 25 miles and 4 laps; Hazel Harvey, 24 miles and 3 laps; Hazel Haudek, 24 miles and 1 lap; Odessa Webb, 20 miles; Maud Miller, 21 miles and 5 laps; Marie Haughton, 21 miles and 2 laps.

BOTH SIDES.  
UP TO TOMAN SAYS EWING.

Wants Report from Umpire Before Acting.

Will Not Suspend Olson for Spiking Dillon.

McCredie Makes Defense for His Shortstop.

BY DIRECT WIRE TO THE TIMES!

SAN FRANCISCO, April 5.—[Exclusive Dispatch] Although Henry Berry of the Los Angeles team has shown charges of rowdiness against Olson of the Portland Beavers and has asked that he be fined and suspended, President J. Cal Ewing will take no action until he has heard both sides of the case.

No report has been received from Umpire Toman as to the affair and, although Walter McCredie and the Beavers arrived this afternoon from Los Angeles, he made no official statement.

McCredie has a different story to tell than that conveyed by the Los Angeles dispatches. He says Dillon was spilt, but denies it was intentional.

"Until the affair has been investigated," said President Ewing today, "I will not make a decision. I have heard neither from the umpire nor from the Beavers, who will be here Saturday, when I will be suggesting a fine and suspension for a dirty baseball, but I will want to hear both sides. If a player intentionally injures another, he cannot remain in this league."

"In this case, it is impossible for me to tell whether the spiking was intentional. We all know that quite often a first baseman is spiked, but that is almost unavoidable. I will hear what McCredie has to say as soon as I get word from the umpire."

HOGAN GETS BACK.

FIRST GAME DAY.

Happy Hogan and his bunch of Vernon players arrived from Sacramento yesterday and are to open against the Los Angeles team this afternoon at the Vernon grounds.

This was the first time the rival local teams will have met and it should be a battle royal. With Dillon on the team the Hogans should have a better chance of winning. It is pretty hard odds for a newly organized team which has not yet got to playing together, to stack up against the league champions, but Hogan said last night that he and his men are not afraid of the enemy and within a few days of the first game, they will show Berry and his crowd what a real ball team looks like.

Hogan says he will be very satisfied with what they have done, although he is not satisfied with the strength of his team. He wired last night for several men from the big leagues who may be turned back to him and he hopes for help from the big fellows.

Hogan says he will not release any of his men just yet, as in the short time that they have worked together they have not been able to do much, but as Matchmaker Hancock says he will go after weeks for a return match if Hogan wins, the little fellow will be given a chance to make good.

The fans are still indignant over the opening game Sunday and Ewing's stand on the matter has not yet ended his friendships here. It seems to be a deliberate attack upon the Los Angeles team. Several fans who will testify to what they heard, say McCredie has been instrumental in attempting to run the Hogans out of the park.

Pratt smashed out three doubles in six times up, and scored a lot of runs ahead of him.

WHERE, OH! WHERE?  
'NICK' ABSENT,  
QUIZ GOES ON.

Grand Jury Resumes Inquiry  
After Long Recess.

Fetter and Fohl, Lieutenants  
of Ex-King, on Stand.

Detectives Start on Another  
Chase of Big Chief.

As usual, Nick Oswald was not  
caught yesterday.

This statement probably may be  
repeated with absolute regard for the  
truth for many years.

Some time, along about 1909, a man with a long white beard will wake up in an obscure cabin in the mountains, whistle for his dog Schneider, pick up his rickety gun and come back to Los Angeles, looking for the old red-light district he once knew so well.

Well, this Rip Van Winkle will be  
caught, and it is to be expected that his  
shambers will not be disturbed for a  
long, long time to come.

It is true that Chief Detective S. L.  
Brown of the District Attorney's department of criminal investigation, was dashing out in an automobile last night, accompanied by a number of  
deputies, ostensibly on a chase of Oswald, but the public has become accustomed to these chases, and few persons will believe that anything is  
done until the genuine old Nick himself is brought in.

The proceedings of the special grand  
jury yesterday were very tame, especially when compared with the outburst of  
the room in the International Bank building, in which the inquisitorial  
body sat.

After the nineteen jurors assembled  
after the ten-day recess they looked  
expectantly for Oswald, the former  
king of the Tenderloin, upon whom  
they have come to rest for the main  
tenure, as certain crooked deals.

They clearly were disappointed, for  
"Nick" did not show up. With many  
others, he had labored under the belief  
that the District Attorney's offer of  
\$500 reward would produce the fugitive.

In the absence of Oswald, one of his  
former lieutenants, and a fellow fugitive  
from justice, William Lawrence  
Fetter, was sent on a rath to the  
place where he knew of transactors in  
the old red-light district. Fetter is now  
held under bond of \$1000 for attempting  
to evade the service of a grand jury  
subpoena. He has remained here  
before noon, and in the afternoon he  
was on the stand for about thirty minutes,  
before he was permitted to go.  
Then he was told to return this morning  
to talk a few more.

Following Fetter, John Fohl, rent  
collector for Oswald, in the Tenderloin,  
was called. He was put through the  
grand jury for an hour, then the  
grand jury adjourned. He and Felix Claviers,  
the former automobile dealer and repre-  
sentative of Oswald, and Claviers  
the hotelkeeper, a son and restaurateur on  
Aliso Street, who is reported to  
know much about the way things ran  
in the red-light district when Oswald  
was here.

What the jury learned from the four  
men examined yesterday is a secret,  
of course, but the prevailing opinion  
seems to be that no evidence had  
been brought out that would warrant  
an indictment.

Desire all the apprehensions of those  
who have been following the case from  
its inception, the District Attorney and  
his chief deputy apparently are of  
the opinion that Oswald will be indicted  
in time to appear before the present  
grand jury. It seems certain that, without  
such a trial, there can be no indictment of  
Oswald.

Nevertheless, it looks as if there  
would come mighty interesting disclosures  
in the event that the grand jury  
makes a report of any kind.

INTEREST IN PAINTING.

Controversy Over 'Shadow of the  
Cross' Causes Offer of Large Sum  
for Reproduction.

Considerable interest has been created  
by critics of the painting "In the  
Shadow of the Cross," now on exhibition  
at the Young Men's Christian Association.

There are three points of interest in  
the picture. First, as a strong and  
dramatic presentation of the face of  
the Christ; second, the unusually  
produced luminous background, un-  
explainable by the artist himself; and  
third, the chance production of a rude  
cross, which can only be seen in the  
background when the lights are turned  
off.

W. F. Thomas, who is in charge of  
the painting, declares that in the  
twelve years and more that it has  
been exhibited at least a hundred  
experts and critics have examined  
and have failed to find evidence of  
phosphorus, foxfire, pitchblende or radium,  
and that it is impossible that  
anyone could form a constitution  
of the background and retain the  
light through all these years, unless  
sealed from the air.

The picture has neither heat, vapor  
nor odor, even in the dark it casts a  
light on the most delicate moon-  
light, and Henry Hubbard, the  
painter, declares that he does not know  
how he produced the phenomenon, and  
he was unable to even make the at-  
tempt to copy it.

Dr. Wright, a wealthy physician of  
Washington, D. C., and is exhibited  
solely in the interest of educational objects,  
from time to time, in the Southern  
California Academy of Sciences. He also  
gave extracts from other interpretations  
of the poem, running back into  
the writings of past ages.

HEARING SET.

Howell Titus, in jail here on a  
charge of passing a worthless check,  
will have a preliminary hearing in the  
township court on the 8th inst.

ELGINORE.

ELGINORE, April 5.—The last month  
coal and clay shipment, the last month  
of the year, was twenty-five cars;  
clay, eighty-seven cars. Much stone  
was also shipped.

Wild flowers and feed are coming in  
in abundance and all crops are in  
the class condition. There has been  
almost no frost this season in this section.

Mrs. James Bain of Winslow, Ariz.,  
is the guest of her mother, Mrs. O. A.  
Miner of Summer Avenue. Mrs. Bain  
will arrive about the 16th inst.

Mr. and Mrs. C. N. Gardner of the  
Lakeview Inn returned yesterday from  
a trip to Biscoidino.

Frank F. Folsom, vice-president of  
the California Fireproof and Construction  
Company, has rented Mrs. Ellen  
Rand's five-room cottage on North  
Main street for six months and, with  
his family, will reside there. Mrs.  
Wightman and child will arrive to-  
morrow.

BOLD PURSE SNATCHERS.

Three Men Hold Up Woman at Naud  
Junction—Shopper Loses Money

BAG OPENED.

Two women were victims of purse  
snatchers yesterday. The thieves  
made their escape.

Señora Carlota Ybarra de Sanchez,  
who lives in Santa Ana, was sur-  
rounded by three young Mexicans at  
Naud Junction, yesterday morning.  
One took her purse while the others  
pinched her arms. She gave the police  
a good description of the fellows.  
The purse contained \$6.15 and a bunch  
of keys.

Miss Anna W. Pugh of No. 2622 Van  
Buren street, was robbed of a hand-  
some silver chalice and purse while  
shopping on Broadway, near Seventh  
street, yesterday morning. The thief,  
who was a well-known entertainer and  
she will doubtless be greeted by a  
large audience. It is said that she has  
read and sung in every State in the  
Union.

MERCEREAU WINS.

The Supervisors yesterday awarded  
to the Mercer EA Bridge and Construction  
Company the contract for building  
what is known as the Michigan  
avenue culvert, just outside the city  
limits near the city of Los Angeles,  
on its bid of \$155. Other bidders were  
the B. R. Davidson Contracting Company,  
\$145; the Union Iron Works,  
\$145; the W. S. Smith & Son, Los  
Angeles Bridge and Construction Company,  
\$1647; H. G. Baker, \$1675; A.  
H. Hawkins, \$1700.

VERSATILE ENTERTAINER.

In the European Lyceum course at  
the Y.M.C.A. Auditorium this evening,  
Elizabeth de Barré Gill, harpist, reader  
and contralto soloist, will appear.

Her services will be accompanied by  
a large audience. It is said that she has  
read and sung in every State in the  
Union.

TRY MURINE EYE REMEDY.

## VASTLY DIFFERENT!

In the first three months of 1909, the Los Angeles Times  
printed a larger volume of advertising than any other news-  
paper in the United States.

Its unequalled aggregate of 13,166 columns for the period  
named was 2½ times greater than the sum total carried by the  
Evening Express, the latter having printed 5154 columns of paid  
matter for the three months or, 8012 columns less than The  
Times.

The gain of The Times in business during the months of  
January, February and March this year, over last, was 842  
columns; that of the Express, 699 columns.

The vast difference and lead of The Times over all local  
contemporaries is not duplicated in any other city of the same  
size in the United States.

Note—March, 1908, had five Sundays, as against four for  
the same month of this year.

IN SUSPENSE.

## LIBERAL VOTE FOR FORWARD.

PRESENT MAYOR WILL GET THE  
"WET" SUPPORT.

Today's Election in San Diego Prom-  
ised to Be Most Hotly Contested.  
Will Be First Under New Charter  
Modelled After Des Moines Plan.  
Temperance Element Active.

SAN DIEGO, April 5.—With a regis-  
tration of 2200 voters tomorrow's election  
promised to be the most hotly  
contested for many years. The principal  
issue is the anti-saloon question.

A Mayor, City Treasurer, five Coun-  
cilmens and five members of the Board  
of Education are to be elected, to  
name Guzman. Mrs. Arbis, had been  
ill for several months from heart, lung  
and stomach troubles, probably tuber-  
culous. While sitting in a chair on a  
verandah, Saturday, she toppled over  
and died ten minutes later.

Ten weeks ago Ignacio Farra came  
down from Los Angeles and soon Mrs.  
Arbis was one of his patients. Farra  
stated to Conrad, S. Smith that he  
had not intended to be a doctor,  
but he never gave up his service  
and only sold his medicines. To Mrs.  
Arbis he sold four batches of liquid  
made of two ounces of some kind  
of potassium, two drams of mint  
and two pounds of sarsaparilla with  
two quarts of water. For this he  
charged \$12.65 per batch. The medi-  
cine, he testified, was to take out  
spasms in her stomach, back and  
chest. He said he had used it before  
in Los Angeles and Long Beach. The  
ingredients of the two quarts would  
have cost him a dollar.

Farra gave it as his opinion that  
Mrs. Arbis died "from the effects of  
wind in her stomach going to her  
head." Farra may be prosecuted for  
practicing medicine without a license.

The Coroner's jury decided death  
was "from natural causes, exhaustion  
from a long illness of heart and  
lungs."

SCHOOL BONDS SOLD.

J. W. Phelps of Los Angeles, at the  
second bid, on \$1000 bond.

The Hawthorne school district  
bid \$1000. Other bidders in the order  
of their bids from high to low, were  
J. H. Adams & Company, the Los  
Angeles Trust Company, the W. R.  
Staats Company, and G. C. Blymer &  
Company.

CHINESE MERCHANT HELD UP.

F. Sule One, a merchant of No. 510  
North Los Angeles street, yesterday  
reported that he had been assailed by  
a highwayman and robbed of a  
handsome gold watch. Saturday night  
He had locked his store, and was on  
his way home when felled by a blow  
on the head. Before he recovered his  
senses, the highwayman had dis-  
peared.

PARKS AND GARDENS.

The Pacific Mail Company has re-  
ceived no new details of the wreck, or  
of the present position of the Indiana,  
Assistant General Manager, Frey.

For today, no news would be made for  
the work of salvage until Capt. Pillsbury  
completed his examination. Hope  
is expressed that it may be found  
possible to refloat the ship, it being  
estimated that the cost of salvaging  
the vessel will be \$100,000.

Units still come up, it is  
believed above water and easily saved.

HEARING SET.

Howell Titus, in jail here on a  
charge of passing a worthless check,  
will have a preliminary hearing in the  
township court on the 8th inst.

ELGINORE.

ELGINORE, April 5.—The last month  
coal and clay shipment, the last month  
of the year, was twenty-five cars;  
clay, eighty-seven cars. Much stone  
was also shipped.

Wild flowers and feed are coming in  
in abundance and all crops are in  
the class condition. There has been  
almost no frost this season in this section.

Mrs. James Bain of Winslow, Ariz.,  
is the guest of her mother, Mrs. O. A.  
Miner of Summer Avenue. Mrs. Bain  
will arrive about the 16th inst.

Mr. and Mrs. C. N. Gardner of the  
Lakeview Inn returned yesterday from  
a trip to Biscoidino.

Frank F. Folsom, vice-president of  
the California Fireproof and Construction  
Company, has rented Mrs. Ellen  
Rand's five-room cottage on North  
Main street for six months and, with  
his family, will reside there. Mrs.  
Wightman and child will arrive to-  
morrow.

BOLD PURSE SNATCHERS.

Three Men Hold Up Woman at Naud  
Junction—Shopper Loses Money

BAG OPENED.

Two women were victims of purse  
snatchers yesterday. The thieves  
made their escape.

Señora Carlota Ybarra de Sanchez,  
who lives in Santa Ana, was sur-  
rounded by three young Mexicans at  
Naud Junction, yesterday morning.  
One took her purse while the others  
pinched her arms. She gave the police  
a good description of the fellows.  
The purse contained \$6.15 and a bunch  
of keys.

Miss Anna W. Pugh of No. 2622 Van  
Buren street, was robbed of a hand-  
some silver chalice and purse while  
shopping on Broadway, near Seventh  
street, yesterday morning. The thief,  
who was a well-known entertainer and  
she will doubtless be greeted by a  
large audience. It is said that she has  
read and sung in every State in the  
Union.

MERCEREAU WINS.

The Supervisors yesterday awarded  
to the Mercer EA Bridge and Construction  
Company the contract for building  
what is known as the Michigan  
avenue culvert, just outside the city  
limits near the city of Los Angeles,  
on its bid of \$155. Other bidders were  
the B. R. Davidson Contracting Company,  
\$145; the Union Iron Works,  
\$145; the W. S. Smith & Son, Los  
Angeles Bridge and Construction Company,  
\$1647; H. G. Baker, \$1675; A.  
H. Hawkins, \$1700.

VERSATILE ENTERTAINER.

In the European Lyceum course at  
the Y.M.C.A. Auditorium this evening,  
Elizabeth de Barré Gill, harpist, reader  
and contralto soloist, will appear.

Her services will be accompanied by  
a large audience. It is said that she has  
read and sung in every State in the  
Union.

## DEEP SEATED COUGH CURED IN 5 HOURS

New Home-Made Syrup,  
(Cut This Out.)  
From Boston Press.

Progress in medical compounds never  
ceases, and now it is stated by a prominent  
medical man that any deep-seated  
cough or cold on the lungs can be actually  
cured in five hours by the clock. Opium  
and morphine have been resorted to in  
the past, as relief measures. But now it is learned that the system must  
be treated to rid it of inflammation and  
congestion. A tonic laxative cough syrup  
does the work so quickly and thoroughly  
that it is almost magical. What hetero-  
geneous herbs and roots can be accom-  
plished in hours. Get this formula filled  
or mix it at home and always keep  
it on hand: One-half ounce fluid wild  
cherry bark, one ounce compound es-  
sence cardiot and three ounces syrup  
white grape. Shake well and take twenty  
drops every half hour for four hours.  
Then take one-half to one teaspoonful  
of the syrup. It is purified and  
toned up. Give children less according  
to age. One filling will usually cure a  
whole family, as the dose is small.

## ENGLAND'S ATTITUDE FRIGHTENS

[BY DIRECT WIRE TO THE]

VIENNA (Austria) April 5.—[Ex-contents of the English Dispatch.] Serious apprehension is beginning to be felt among the English as to whether Austria's action in annexing Bosnia and Herzegovina does not threaten to replace the peace of Europe.

The progress of the militarist movement in England is viewed with alarm.

It is feared that the country's triple entente may pursue in union a policy of warlike preparation, which may fall to keep Europe constantly disturbed, and which may finally bring about a general clash.

The hostile tone of the British, French and Russian press is reflected more or less by the diplomatic representations of the various countries.

Sir Edward Grey's strong language in the House of Commons is considered significant and disquieting. The British Foreign Secretary declared that the attempt by a continental power to dominate in affairs on the continent would be regarded by England as a cause

of war.

The Austrians act as though they say that what this means.

They say that England's pretensions are too great, and that it ought to be received \$30,000.

**WIFE PREVENTS HIS MARRIAGE.**  
PRETTY ARIZONA WOMAN HAS NARROW ESCAPE.

An Odd Story Comes to Light When Wealthy Horseman is Convicted of Battery—Not Divorced, But Proposes and Arranges for Another Wedding.

W. C. Weant, a wealthy race horse owner, pleaded guilty to the charge of battery in the Police Court yesterday afternoon, and was fined \$25. The complainant was Miss Jennie McKenzie, a pretty young woman of Yuma, Ariz., who until a few days ago, was the defendant's dearest friend.

The horseman, named McKenzie in Arizona, and proposed to her, she said, after he had called on her several times. Then he came to Los Angeles with the alleged intention of making a home here for her after their marriage.

But Mrs. Weant suddenly appeared on the scene and caused her former husband to forget about the proposed second wedding, according to the testimony.

Miss McKenzie's story is as follows: Before Weant left Arizona, he made arrangements to return to his home in Los Angeles whenever he wanted to. Not long ago, I received a letter in which he stated that he was well fixed, having bought a stable on San Pedro street, and placed three of his horses in the track at Santa Anita. He said he wanted me to come to Los Angeles right away and we could then get married. I came here and he seemed to be very happy. I spent considerable time and money in buying a trooper. One day, a woman whom I recognized as the former wife of the man I thought I was going to marry, had seen her picture, for he carried it with him. I thought I would make sure that all the divorce papers had been served so that Weant's wife intended to remain so. I made investigation and found that the horseman had never obtained a divorce. Naturally he was mortified. She agreed to come to Los Angeles. Weant would be to make a settlement for what I had paid out. He then struck me on the head with his umbrella and hit me with his fist, three or four times and I had him arrested.

APPOMATTOX APPLE TREE.

There has been some controversy as to the apple tree which Grant surrendered to Gen. Grant at the end of the Civil War. Writers have declared that no apple tree was in sight. An old soldier, now a resident of Los Angeles, brings forward pretty strong evidence that the tree in question is the one Grant had in his camp.

Grant did meet near an old apple tree. He saw the meeting and has a piece of the tree. He brought the treasured relic to the Times office yesterday. Mr. Edward G. Blodgett, 1115 Franklin street, is the man. He is first sergeant of Co. C, Eighth Maine Regiment, a member of the

## THE OIL INDUSTRY.

PARAFFIN HAS  
BIG PRODUCER.Seventeen Thousand Barrels  
Yield in March.Section Twenty-five, Midway,  
Looms Up Big.Associated Work; Coalings  
Company's Output.

The producing career of section 25 in Midway has only begun is shown by the yield of the Paraffin well No. 1 which yielded 16,900 barrels in March. In some years ago people were wondering as to whether this was not the barren ground, part of the same good break between Sunset and Midway.

Today every company on that section is doing well and land is at a premium. It is right in the midst of the great oil districts, every foot of it gives signs of oil and nearly all of it is touching each other. Recent drilling on the southern part has shown production on the west of Mascot and Mount Diablo producing properties line its borders north the Standard and Santa Fé are bringing good producers and just east the San Joaquin and Big Four have practically proved its land all of which, of course, adding to the value of section 25, on which are some of the wells west of Midway.

It is from the companies on 25 and from the Mascot on 26 that the Standard buys most of its oil in Midway.

**Associated Development.**  
The Associated is running five or six new wells. Coalings on section 25 is getting good production. Kern River development of the Company's properties has practically come for the present in accordance with the demands of the day, to other fields as its production is concerned and relying upon purchases to supply its needs.

**Traders' Big Production.**  
The Traders, operating the west half of 25-26-27 and two small tracts on 25, is getting a production of 60,000 and 70,000 barrels a month and has now 100 wells in the district, several of which have been drilled for a few days to allow the associated to move the stocks. Once twice all the wells have had to be pumping four days or so, sometimes part have quit. Two wells are being run now.

Manager J. Benson Wren says the main trouble is the matter of moving.

The demand in the market will take care of all that is produced and more.

**Mid-Continent Shut Down.**

On the 2nd inst., a general shutdown began in the Mid-Continent region of the oil fields of the Mid-Continent Association. The over-production and adverse State legislation are reasons cited. The closing is to last months.

**Anti-Trust Danger Removed.**

With Gillett has signed the Rich bill

protecting the Cartwright anti-trust

law of the independent oil companies

by distinction of trade and

name in its aid, and so defines the

atter as to bring the oil agencies under

the law. This removes whatever

danger there is in bringing the oil

agencies under the antitrust law.

Pending this action the

agencies have been doing little or

nothing along the line of renewing

or amending sales contracts.

It will be remembered that a pos-

sible violation of the law was one of

the objections urged most strongly

against the proposal to organize

a trust.

**Exploiting Kreyenhagen.**

Smith &amp; Bryner, who were interested

in the Section Seven Oil Company,

have acquired some 6000 acres in the

Kern River district, and in 1914,

thirteen miles south of the town of

Coalings. They are cleaning the

abandoned wells on the Black Mountain

and Black Hills properties and

will endeavor to get their fuel from

them.

Rigs are going up between Coalings

and Kreyenhagen and a number of

wells are being put in and further south

Kreyenhagen, the scene of

a little development. A company

has been organized by R. J. King and

John Harford men to prospect six

miles south of Laramie the Devil's Den

and Kettman Plains and the Devil's Den.

The rig is about up by this time, and

the work should start within two weeks.

The Devil's Den country the Pluto

is down 20 feet.

The Square Deal, a Hanford com-

pany, is about ready to drill in the

Black Hills in Northern Kern county.

**Kern River Developments.**

J. M. Danziger and B. B. Lathbury

## MUSIC AND THE STAGE.

large, luxurious limousine-and-cars audience paid its annual visit last night to the perennial Little Russell's beauty, which has seemed indescribable as her insistence good-humored.

Mr. Russell is equipped with a better piece than usual. It is "Wildfire," a comic comedy in which Mr. Broadhurst's wit and witlessness are happily combined with Mr. Hobart, who could be in our midst if he knew what was what. Mr. Broadhurst seems to have technical facility, together with the running form of dialogue, while Mr. Hobart's part was to snap off a jocular species of the epigrammetry which is a newspaper business, and he's not bad, but that's the way I should imagine.

Wildfire is a horse, the only property of Mr. Barrington. Miss Russell's action of the piece centers around Mr. Broadhurst's accomplishments, and the audience at Wildfire. There is a distinctive state, boy, productive of much mirth, about jockey, villain of the old melodramatic type, a character Englishman and several others of many note.

It is a matter of importance, however, that Wildfire is really second to his master, as she holds the stage most of time, discussing Russellian philosophy, her traditional laughing and love, and all the smartness inherent in one her historic fame, and freeing her of much seem satire and humor.

## FACTS, FEATURES AND FANCIES FOR WOMEN

BY MISS SYDNEY FORD.

Not even at Holiday time have I seen more fascinating windows, and over the whole round year, do we see such charming creations in women's wear as just before Easter. Spring styles are always far more enticing to my mind, than fall fashions. When we see trees and flowers putting forth, and grass growing green again, we realize that Mother Nature doesn't much trouble herself over that; that we, her children, should have a keen desire to do the same. We are tired of furs and annals and heavy coats and collars, and we long for the pretty shimmering summer gowns and the fresh flowerets and the gauzy veils and gay ribbons which announce that spring is here. Then let us away to the shops and to the gorgeous openings.

**The Lady in Lavender.**  
Did you see her yesterday—the lovely lady in lavender—standing in a gilt frame in a Broadway window? She was beckoning us by the loveliness of her gown to come inside and view the display.

I noticed one especial point in all the gowns on those models, and that was the simplicity of the make and the perfect lines. It's an easy matter, however, to fall into the trap of too many frills and flourishes to cover the foundation, but when it is cut on absolutely plain lines—ah, there's the ultimate to make it fit faultlessly. And that's what these models did. And the lady in the frame was a lavender tape metor gown that fell away from her figure in long, graceful lines, unrevealed by draped or any such, the front and back effect. The delicate ornamentation was the exquisite pink lace, the yoke and short sleeves and the pearl head fringe which finished the yoke, and the tamer just above the hem of the skirt.

There was a lilac lavender, too, in the shade which we used to know as shades of roses. It was of finest violet pattern gown—and made in the long tunie effect which fell over a skirt of the same fabric. The blouse had a sole over-dress had a border in satin stripes and the sleeves were over the close-fitting undersleeves of white lace shot with silver, the yoke being of the same.

The Bedington street suits on exhibition all displayed these same lone, perfect lines which I have mentioned. There was a white satin serge braided with gold, and a dark blue serge with a smart, buttoned diagonally across the front from shoulder to hem, and a faint Marguerite pocket swinging jauntily from the belt-line.

**An Old-Rose Symphony.**  
Was there ever a lovelier shade than old rose? The shop windows aglow at the day. One long stand and its wide window front on Broadway does in this gorgeous color yesterday the wax-like Easter lilies showing to special advantage against the background of the more sombre, more worn charming gowns on the models, and hats and hoseery, silks and satins, ribbons and ruches, purses and parasols, mulls and muslins, linens and silks, all in a perfect symphony of old rose running from the palest to the deepest tints.

**Did You SEE THAT?**  
In the window of another big store, which was done in old rose, I saw a particularly beautiful hat—and a hat that you can conscientiously call really beautiful in this season of freakish millinery of all sorts. This was an old-fashioned straw and lined with old-fashioned lining. It was a large hat, but its shape was both picturesque and artistic and in no way resembled the many monstrosities of inverted chignons and such trash which were then in vogue. It was inflicted on us this season. Its soft trimming was a chin bow of old-rose velvet and four ostrich plumes—two of them in a deep rose shade and the other two in pale rose, which matched exactly the velvet bow. It was a perfect hat.

**LOVELY LINEN GOWN.**  
In another store I saw a model gown in the heavy linen crash which is so fashionable this spring. It came from one of the most exclusive New York houses. This too, was cut on plain lines, and the bodice and high collar were of simple tucked net—but the embroidery on that gown—it was simply well, words fail!

I had a peep into the stock room, and much display of lovely gowns, lace, and such.

There was a cool suit of soleil in a delicate shade of blue, with yoke and long sleeves in lace of the same shade. Then there was another in pink and another in champagne, and others in—well, go and see for yourselves. Plain type cannot reproduce them.

**You With Limited Means.**

Another point which impressed me at these various spring openings was the fact that provision is amply made for the woman of moderate means as well as for her more exalted sisters.

"Oh, I wouldn't dare go in there," I heard a woman say the other day, concerning a high-class establishment.

Now I have seen the reason.

There are these stores excellent suits and costumes for as low as \$20—long racks of them—and well-made garments with the element of style which the higher price goods costed by these same firms. It is simply astonishing to see how much consideration is shown by these merchants toward the woman of excellent taste but limited purse. It is my opinion that most of the Los Angeles firms cater quite as much to the army of people in the middle classes as to the exclusive few who can write their checks in half a dozen figures.

**He is a Live Man.**

No ladies, he is not an automaton, though he is a live man—the one who revolves around the piano in the window of a Broadway music house. I tell you this because I know it well. I went inside the store and I could not understand how he heard him talking with another man.

The marvel of it all is—not that an automaton can appear on a window like a live man—but rather that a real live man can seem so much like an automaton. His make-up is perfect and how he maintains that glassy eye, and studied calm, and jerky motion is the wonder of the performance.

**Do You Sleep Well?**  
There is nothing in the world that so helps or hinders a woman's personal appearance as sleep, or the lack of it. I can not tell you how heartbreaking a woman may be to her love a night's sleep and it tells tragically in her face. I know a woman who is nearing her sixtieth birthday and yet, as her, one would never dream she

The Course.

There's the scream of gulls in a purple sky; There's the churn of surf where the tide beats high; There's a scudding keel, and sails that fly; And a star—one star—that you're steering by; The circling storm-birds wheel and cry.

The torn wind shrieks in the cordage high, And it's fate if you live, and it's fate If you die; And it's fate that knows where the rock-reef lies; And all that's left to your hand or your eye, Is to follow the star that you're steering by!

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

PASADENA.

## MAJOR EARLEY IS RE-ELECTED.

ARRIES WHOLE COUNCILMANIC TICKET WITH HIM.

**Vote Largest Ever Cast at Municipal Contest in City—Result Calls Forth Remarkable Demonstration. Management of Cemetery Criticized—Edison Company Loses.**

**Los Angeles, April 8.—Thomas Earley was re-elected Mayor of Pasadena yesterday, by a majority of 402.**

**The vote was 229 for Earley, and 187 for Waterhouse.**

**The total vote was 436, the largest ever cast in this city in a municipal election.**

**Major Earley carried his entire ticket with him. The Councilmen elected are W. H. Kornin, Second Ward; A. G. Cattell, Third Ward; John F. Barnes, Fourth Ward; W. K. Chase, Fifth Ward.**

**The result called forth the most enthusiastic political demonstration ever seen in Pasadena. To the tune of "Hail! The Chief," by the Pasadena band, 1000 men marched up to the Universalist Church, where Mayor Earley was listening to a discourse on "The City Beautiful," captured him as he was about to enter his automobile, and carried him in triumph on the shoulders of friends to his headquarters, three blocks away.**

**It was some minutes before the cheering allowed Mayor Earley to speak. "I am especially pleased because victory has come to us through clean methods. I never asked one man appointed to office by me to work for me. I did not seek the office in fact I tried to escape responsibility. I consider my reelection a victory for our stand on the water question. It will give me pleasure, now that I am elected, to have any one who thinks that any of the statements I have made are untrue to come to me, to show me wherein they were in which case I will acknowledge it to you."**

### TO URGE BOND ISSUE.

**One of the Board of Trade's illustrated booklets on Pasadena was returned through the mails with a sharp pencil mark on the back reading: "Demand the union label on all your printed matter." The booklet was returned by the typographical union of St. Paul, Minn.**

### EDISON COMPANY LOSSES.

**Judge Webborn of the Federal District Court yesterday sustained the demurrs in the cases of the Edison Electric Company against the city in regard to bills for payment of street lighting. The company made two contracts with the city for the period of five years for lighting, the amount of lighting equipment, and one from year to year for the electric energy furnished. The city had the lights tested and found that only about 50 per cent of the amount of electric current consumed and charged for was being furnished. The city offered to settle on a 50 per cent basis. This was refused by the company, which entered suit for the full amount of the bills.**

**The city's attorney, Mr. Earley, said that the suit was destined to win, signal whistles were blown, rockets shot above the city and red fire illuminated the streets in all sections. The largest crowd ever at this city's polls, probably in its history, turned out through the streets at half past eight in the morning, to witness the trial.**

**Precincts seven, eight and nine won the day for the administration party. Mayor Earley, who carried a majority of 445 votes. Waterhouse came very nearly losing his own precinct, carrying it by but sixteen votes.**

**Major Earley carried his home precinct by eight.**

### PASADENA BREVITIES.

**No trace has been found of the six-cylinder Peerless automobile belonging to Robert H. Gaylord of No. 26 North Los Robles avenue, which was stolen by two men, while the owner and his friends were in a Los Angeles theater.**

**Recs. of H. H. Health, Miss Evelyn Solbie, leading lady of the Bentley Grand Theater, has retired from the company and her place is taken by Miss Clara Williams, who came here recently from San Francisco.**

### CORONADO IS THE PLACE FOR YOU.

### DISCUSS OUTFALL SEWER.

**Cean Park Trustees May Change Plans in Reference to Wishes of Venice.**

**OCEAN PARK, April 5.—The Trustees tonight considered the project of laying the outfall sewer pipe on the back of the sea. Bids for pipe for this purpose have been solicited and a positive decision will be made as soon as the exact expense of the proposed improvement is known. In the meantime the open opposition of the merchants of Venice to this method of disposing of the affluent of the septic tank may result in a change of plans. The organization of business men recommends the extension of the Cean Park sewer, its utilization in carrying the pipes.**

**Plans are being considered for the proposed concrete bulkhead and if the expense of that method of protective construction is found to be within the limit, there is a possibility that the proposed bulkhead south of Venice may be built in the ravine and cut.**

**The Cean Park sewer, which was to be completed in the fall, was the greatest surprise of the election. The table shows a majority of 225 for W. E. Patterson.**

### CRITICISE CEMETERY.

Mountain Robber Who Terrorized Indian Bordering San Marcos Pass Is Believed to Be Insane Man Who Was Held by Forest Rangers in Man-Lake Country.

DIRECT WIRE TO THE TIMES.—SANTA BARBARA, April 5.—[Ex-  
clusive Dispatch.] Charles B. Sedgwick and Miss Kathryn C. Peterson, of Santa Maria, came into town yesterday and got a license to wed. Rev. Dr. More of the Presbyterian Church married them at the Mescalero Club this afternoon. After a brief honeymoon they will explain how they found their Santa Maria friends.

## MOUNTAIN ROBBER?

The mountain robber who has been terrorizing the mountain section of the San Marcos Pass is believed to be in custody, and that he is now the burden of a report from Forest Rangers Lieben and Davis today in the Manzana Lake country.

Blowing from under his face and causing a sad sight by his side, the insane man sought refuge with the rangers. His raiment was in rags and he looked nearly starved.

Sheriff Stewart has sent officers over the mountains after him.

## SIBYLLOUS SENORA.

Susan Isadora Leyva, 50 years old, who is in a large part of her life now in prison, was sent to the County Jail for sixty days today for drunkenness.

"This is the twentieth time you have been arrested," said Chief Ross, "the senior, the twenty-eighth," said the dubious before, with a touch of pride.

## IMPERTINENT BROWN.

To steal a man's wife is theft, but to attempt to sell it back to him after one has stolen it is impertinence. This is why a young man, who says his name is Brown, is locked up at police headquarters.

Secretary Goddard of the local Young Men's Christian Association left his wife and, leaving her unconscious in their tent, he went to a shed close by, where the three sons were chopping wood. Thomas had armed himself with a rope, and attacked the boys, declaring that he had come to hang them all. He placed the noose about the younger boy's neck, and was about to haul him from the ground, having thrown the rope over a rafter, when the other two boys interfered.

With axes they rushed upon the father, who was compelled to back away, but as he jumped to one side he picked up an ax, and with this he made a hole for his sons. The older boy, who was attempting to talk again, discharged it at the father, the shot tearing an awful hole through his face, killing him instantly. The boys then packed the corpse on a burro and carried it to the police station, where they surrendered to the officers.

Harry Irvington, a miner, who brings the news here, states that the sympathy of the camp is with the boys, who have been released on their own recognizance.

## IN REVOLT.

In spite of his determination to break into the penitentiary, it seems as though Young C. H. McCarthy, an alleged burglar, will be turned loose. He was turned over to the Superior Court after he had been arraigned when a young man entered his office and after telling a hard-hack story, offered to sell a wheel. Goddard recognized the belligerent and detaining the youth, called it "Brown" to his companion Jones. Tonight "Brown" is threatening the ill-fate that led him to jail.

## ANXIOUS FOR JAIL.

In spite of his determination to break into the penitentiary, it seems as though Young C. H. McCarthy, an alleged burglar, will be turned loose. ## TRACKLESS TROLLEY.

The trolley will grant a franchise to the Pacific Improvement Company to build a steel light and power line and to operate a "trackless trolley" between the old hospital building at the southeast corner of Tenth and B streets for a detention home. This morning the board favorably considered a motion to lease the building, with the privilege of purchasing the property.

The board ordered advertisement of the franchise for sale June 7. The same action was taken by the City Council recently.

The "trackless" trolley is an Australian invention and this, so far as can be learned, is its first application in America. The overhead wires will merely supply energy to electric automobiles. This line, it is proposed, will transport people between the Potter Hotel and Potter Country Club on Hope ranch.

A few days spent at Arrowhead Hot Springs will put you in perfect physical shape.

## HELP YOUNG DERELICTS.

Court of Probation for Dealing With Juvenile Offenders Organized by Ventura Judge.

VENTURA, April 5.—Judge Clarke has taken steps looking to the formation of a court of probation for the handling of offenses committed by juveniles and also for the proper care of the derelict young of the community. He has named as the Probation Committee Mrs. F. H. Dudley of Oxnard, A. L. Shively of Santa Paula, Mrs. J. A. Drifill of Oxnard, E. S. Thacker of Moorpark, Mrs. C. E. Palmer of Ventura, Mrs. E. P. Foster of this city. For probation officer he has appointed Thomas W. Spier of Menard, a well-known local raiser. While the committee will secure compensation, the salary of the officer for this county is fixed by legislation at \$75 per month.
